

Polygon::move

InsertionSort::sort

List::get_mut

```
graph LR; A[Polygon::move] --> C[List::get_mut]; B[InsertionSort::sort] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes with black borders contain the text 'Polygon::move' (top) and 'InsertionSort::sort' (bottom). On the right, a gray rectangular box with a black border contains the text 'List::get_mut'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'Polygon::move' and 'InsertionSort::sort' depend on or interact with 'List::get_mut'.
